

Bitcoin Revolution White Paper

Version 1.0 | October 2025

Chain: Binance Smart Chain (BSC)

Ticker: BTCR

Motto: From Ashes to Honor

The Origin

From wreckage to rebirth .

Scammed. Rugged. Betrayed.

Bitcoin Revolution wasn't built in boardrooms—it was forged in trenches.

No gimmicks. No inflation. Just grit.

21 million fixed.

This isn't just a token.

It's a reckoning.

Executive Summary

Bitcoin Revolution is a meme-powered digital asset project built on transparency and honor.

Guided by the motto From Ashes to Honor, it's more than a coin It's a rebirth of trust, community, and mythic branding in the blockchain space

Tokenomics

Total Supply: 21,000,000 BTCR

Fixed Supply: No inflation. No minting. Just grit.

Buy Tax: 5%

- 4% goes to Marketing & Growth
- 1% goes to the Liquidity Pool

Sell Tax: 5%

- 4% goes to Marketing & Growth
- 1% goes to the Liquidity Pool

Total Round-Trip Tax: 10%

Every trade fuels the mission momentum and stability

Founder Allocation:

30% of the total supply is held in multisig wallets - No personal custody No rug potential

Team Token Custody & Multisig Governance

To uphold transparency and collective accountability, no team member holds project tokens in personal wallets.

All founder-held supply is secured in multi-signature wallets governed by predefined approval thresholds.

Treasury

Used for long-term growth, strategic partnerships, and operational reserves.

Beacon

Dedicated to community-facing initiatives: airdrops, onboarding flows, meme contests, sticker packs, and symbolic activations.

This structure ensures:

- **No unilateral control** - No single individual can transfer sell or modify token holdings without consensus.
- **Operational transparency** - Every movement of tokens requires multi-party verification reinforcing trust across the community.
- **Resilience against compromise** - Even in the event of a lost key or compromised device the multisig setup protects project assets from unauthorized access.

Treasury is the vault.

Beacon is the flame.

Together, they uphold the myth and momentum of Bitcoin Revolution.

Technical Architecture

- **Smart Contract:** BEP-20 standard
- **Chain:** Binance Smart Chain
- **Multisig Wallets:** Used for Treasury Beacon and LP lock
- **Contract Renouncement:** Ownership will be renounced post-launch to ensure immutability and trust

No backdoors. No edits.

Once deployed, the contract belongs to the blockchain—and the community.

Transparency

- **Treasury & Beacon Wallets:** Multisig-controlled publicly verifiable
- **Holding & Tax Flows:** All major wallets will be pinned and trackable

We lead with transparency—not bureaucracy.

No committees. No gimmicks. Just clarity.

 Disclaimer

Bitcoin Revolution is a community experiment.

This is not financial advice.

Do your own research.

We make no promises—only memes and momentum.
